NOTES TO CONDENSED INTERIM CONSOLIDATED FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED JUNE 30, 2025 (EXPRESSED IN CANADIAN DOLLARS) (UNAUDITED)

1. NATURE OF OPERATIONS AND GOING CONCERN

EDM Resources Inc. (the “Company” or “EDM”), and its wholly owned subsidiary Scotia Mine Limited (collectively, the “Group”) is engaged in base metals mining and related activities, including the exploration and evaluation of mineral property interests that are considered to have the potential for economic mineralization and development. The Company is a public company, which is listed on the TSX Venture Exchange and the Frankfurt Stock Exchange, incorporated on March 9, 2004, and domiciled in Canada. The address of its registered office is Purdy's Wharf, 1959 Upper Water Street, Suite 1301, Nova Scotia, B3J 3N2.

On January 12, 2022, the Company changed its name to EDM Resources Inc. On March 25, 2022, the Company changed the name of its wholly owned subsidiary to Scotia Mine Limited.

The condensed interim consolidated financial statements have been prepared on a going concern basis, which assumes the Company will continue in operation through the fiscal year and into the foreseeable future and will be able to realize assets and discharge its liabilities and commitments in the normal course of operations at the amounts stated in the condensed interim consolidated financial statements.

The Company has not generated revenue from operations. The Company incurred a loss of \$853,415 for the six months ended June 30, 2025 (six months ended June 30, 2024 – \$946,848), and as of that date had an accumulated deficit of \$84,273,837 (December 31, 2024 – \$81,500,345). As at June 30, 2025, cash amounted to \$160,517 (December 31, 2024 – \$487,558), and the Company had a working capital deficit of \$511,647 (December 31, 2024 – deficit of \$169,342).

The ability of the Company to carry out its planned business objectives is dependent on its ability to raise adequate financing from lenders, shareholders, and other investors and/or generate operating profitability and positive cash flow. There can be no assurances that the Company will continue to obtain the additional financial resources necessary and/or achieve profitability or positive cash flows. If the Company is unable to obtain adequate financing, the Company will be required to curtail operations and development activities, and there would be significant uncertainty as to whether the Company would continue as a going concern and realize its assets and settle its liabilities and commitments in the normal course of business.

As at June 30, 2025, Management has forecasted that the Company does not have sufficient cash on hand to meet all planned environmental, exploration, development, general expenses, and property payments for the next twelve months. The Company plans to raise additional capital to further develop and explore its project; however, it may increase or decrease expenditures as necessary to adjust to a changing capital market environment.

The above factors indicate the existence of material uncertainties that may cast significant doubt on the ability of the Company to continue as a going concern.

The condensed interim consolidated financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern. If management is unsuccessful in securing capital, the Company's assets may not be realized, or its liabilities discharged at their carrying amounts and these differences could be material.

11. BASIC AND DILUTED LOSS PER SHARE

Basic loss per share is computed using the weighted average number of common shares outstanding during the period. Diluted loss per share, which reflects the maximum possible dilution from the potential exercise of warrants and stock options, is the same as basic loss per share for the period ended. The effect of potential issuances of shares under options and warrants would be anti-dilutive for the three months ended June 30, 2025 and 2024 as they would decrease the loss per share, consequently the weighted average number of common shares outstanding for basic and diluted are the same.

13. DEFERRED INCOME

In June 2025, the Company, through its subsidiary Scotia Mine Limited, entered into a long-term gypsum offtake agreement with a large vertically-integrated gypsum producer and wallboard manufacturer (the "Gypsum Offtaker"). The agreement provides for the exclusive sale of gypsum and related by-products from the Scotia Mine for an initial five-year term commencing upon commercial operations, which must begin by December 31, 2026. The Gypsum Offtaker is obligated to purchase, on a take-or-pay basis, annual volumes of 250,000 tonnes of gypsum and 500,000 tonnes of off-specification gypsum/anhydrite at agreed prices, subject to modest annual index-based adjustments. An upfront prepayment of US\$250,000 was received, with an option for an additional US\$250,000 advance, both of which are creditable against initial deliveries. Management believes this agreement provides a secure and long-term sales channel for gypsum by-products of the Scotia Mine development.

15. SUBSEQUENT EVENTS

On August 6, 2025, the Company entered into a Silver Royalty Purchase Agreement with Silver Crown Royalties Inc. ("SCRi") in respect of silver production from the Scotia Mine. Under the agreement, the Company receives total consideration of C\$500,000 in cash (C\$250,000 payable on closing and C\$250,000 payable within 30 business days of August 6, 2025) and 60,000 units of SCRi, each consisting of one common share and one warrant at a strike price of \$13.00 each. In exchange, SCRi was granted a 90% silver royalty on net proceeds from the Scotia Mine for a 10-year term commencing upon commercial production, with a minimum annual delivery obligation equivalent to 7,000 ounces of silver. Management views this transaction as a source of non-dilutive financing that provides near-term funding while securing a long-term partnership with SCRi.
